SUMMARY

Full Stack JavaScript Developer with strong expertise in React and modern front-end development, focused on delivering clean, user-centered interfaces and scalable component architectures. Experienced in building reliable back-end functionality using Node.js, Express, and MongoDB, along with developing custom WordPress themes. Resourceful and adaptable in fast-paced environments, applying OOP and SOLID principles to produce maintainable, high-quality code. With a solid foundation in Agile workflows, Git, and proactive problem-solving, I consistently deliver effective, end-to-end software solutions that support project goals and long-term scalability.

CORE COMPETENCIES

HTML — Skilled in writing clean, semantic, and accessible HTML to structure modern, responsive web interfaces.

CSS3 — Proficient in creating responsive, visually polished layouts using modern styling techniques, including Flexbox, Grid, and animations.

JavaScript(ES6+) — Experienced in writing efficient, modular code using modern JavaScript features for dynamic, interactive web applications.

React.js — Skilled in building scalable, component-based interfaces using hooks, Redux, Context API, and modern React architecture for efficient state management and seamless user experiences.

Responsive Web Design(MUI,Bootstrap) — Experienced in building responsive, modern interfaces with MUI and Bootstrap, ensuring consistent layouts and smooth user experiences across all devices.

Figma to UI Implementation (Pixel-Perfect Design) — Skilled in converting Figma designs into accurate, high-quality user interfaces with precise alignment, consistent spacing, and attention to visual detail.

Express.js — Experienced in building server-side APIs and handling routing, middleware, and backend logic to support scalable full-stack applications.

Node.js — Skilled in developing server-side applications, building scalable backend services, and handling asynchronous operations for high-performance web applications.

MongoDB — Experienced in designing and managing NoSQL databases, performing CRUD operations, and integrating MongoDB with full-stack applications for efficient, scalable data management.

WordPress Development — Experienced in creating custom WordPress themes and plugins, implementing responsive designs, and delivering maintainable, high-quality websites tailored to client requirements.

Problem Solving & Debugging — Strong ability to identify, analyze, and resolve technical issues efficiently, ensuring smooth functionality and optimized performance across applications.

EXPERIENCE

React Developer Intern   06/2025 – 08/2025
Connect Solutions
- Developed responsive and user-friendly web applications using React.js and modern JavaScript (ES6+).

- Built and maintained reusable components with props, hooks (useState, use Effect, useRef, use Reducer) to ensure scalability and performance.
- Performed debugging, code optimization, and testing to improve application performance and reliability.
- Worked with Git/GitHub for version control and collaborative development.
- Implemented state management using Context API and Redux Toolkit for efficient data handling.
- Translated Figma designs into pixel-perfect UIs with Material-UI (MUI) and Bootstrap.
- Collaborated with team members to integrate RESTful APIs and ensure smooth front-end and back-end communication.

WordPress Developer   10/2023 – 07/2025

Coding Pixel

- Demonstrated expertise in website development, focusing on responsive, user-centric designs to improve usability and engagement.
- Specialized in custom WordPress theme development, ensuring tailored solutions for diverse client needs.
- Converted Figma designs into pixel-perfect WordPress themes, maintaining accuracy and consistency.
- Collaborated with graphic designers and QA teams to streamline workflows and deliver high-quality outcomes.

Web Developer   04/2025 – 06/2025

Ittefaq Electrotech

- Developed and managed a custom WordPress website for Ittefaq Electrotech, ensuring functional and visually appealing design.
- Designed and implemented responsive layouts and custom WordPress themes to deliver seamless user experience across devices.
- Oversaw website maintenance, content updates, performance optimization, and technical support, ensuring smooth operation.
- Implemented basic SEO best practices to improve search engine visibility and ranking.
- Focused on high-quality code, scalability, and site management to meet client requirements and business goals.

EDUCATION

Bachelor, Computer Sciences   10/2019 – 06/2023

University of Central Punjab Lahore, Pakistan   Lahore, Pakistan

CERTIFICATES

IBM Full-Stack JavaScript Developer Professional Certificate 🔗
